

Administrative Memo

Date: February 2, 2023
To: School Administrators
From: Lisa Sireno, Assistant Commissioner, Office of Quality Schools
Subject: QS-23-001 — 2022 Annual Performance Report

The Missouri School Improvement Program (MSIP) Annual Performance Report (APR) provides local education agency (LEA) and building-level data for stakeholders and serves as the primary basis for the classification of school districts. In accordance with Section 161.855.4, RSMo, the first year under MSIP 6 is considered a pilot year; therefore, the 2022 APR may not be used to lower a district’s classification. The APR is also used by charter sponsors to inform renewal decisions.

The initial MSIP 6 APR, based on data from the 2021-22 school year, includes status and growth information in one release. The APR and supporting data will be available in the Missouri Comprehensive Data System portal for LEAs to review in advance of the public release. School leaders and other stakeholders may participate in virtual and in-person meetings to learn more. The table below outlines the updated timeline of the 2022 APR rollout.
