

First you will create a family profile. Once this is done you will be able to apply to as many schools on your application. If you already have a family profile, you will use this same login information each year that you apply. Take time to complete your child and your family.

4. Get Your Results

Once you submit your application you will be entered into a lottery for each of the schools that you chose. The results will be available on May 1, 2021 at 4pm and will be sent to you via your preferred communication method.

If you have applied after the deadline and lotteries have taken place, your application will be processed on a first-come, first-served basis.

The school(s) you applied to will contact you when they have available space.

You will either be made an offer or be placed on a waitlist. You can be made multiple offers, but you can only accept one.

Once you accept an offer, the system will automatically decline all other offers that you may have. You can, however, be placed on a waitlist while accepting a seat at another school. If you are made an offer from the waitlist at a later date, you can accept it and you will be removed from any other school that you previously accepted a seat with. The system will only allow you to accept one offer at a time.

5. Online Registration

Once you accept your seat, you will receive registration instructions through text and email. You will complete your registration online.
