PART A
EDUCATIONAL PLAN

Mission Statement

The SCHOOL strives to take at-risk students at their current academic levels, build upon that foundation, and increase achievement at developmentally appropriate rates and levels. The SCHOOL does this with the assistance of technology and competent instructors in a cost-efficient manner. Our ultimate goal is to provide applicable skills that will allow students to be lifelong learners and intelligent decision makers.

Another important factor woven into the SCHOOL is the belief that effective education is a cooperative venture between the students, teachers, support staff, and the primary caregivers. Furthermore, in many incidences the local public schools, organizations, and social services can provide valuable support. In short, a teaming process is critical to the success of this program.

Focus of Curriculum- "At-Risk" School

Our core beliefs are succinctly stated as follows:

- The efficient delivery of educational services and resources is critical to our mission.
- Ongoing planning, assessment, and evaluation drive a growing, dynamic organization and provide for the effective use of resources.
- Empowering the learning community through technology is a vital necessity.
- Sound educational decisions are driven by accurate data.
- A well-trained and talented staff that continually upgrades its skills is a requirement for a successful organization.
- Using systemic processes coupled with creative approaches will foster rich educational experiences at reasonable operational costs.
- A spirit of teamwork and cooperation within the organization and with the SPONSOR must be encouraged and nurtured.

GOAL Digital Academy is an at-risk start-up community school sponsored by the Mid-Ohio Educational Service Center and located within the Mansfield City School District. The SCHOOL is a nontraditional school designed to serve at-risk students who are not learning effectively in more traditional educational environments. The SCHOOL uses distance learning technology to deliver instruction via computers to students either in their homes or in other learning environments (e.g., computer classroom at a school), and the SCHOOL additionally may use non-computer based instructional methodologies. Although the SCHOOL cannot exercise control over the non-classroom environments in which instruction will be received, it takes reasonable steps to ensure compliance with health and safety standards deemed available to its students and within the SCHOOL's control.

Characteristics of Students Expected to Attend the School

Need: Research shows that there are currently large numbers of home schooled students at all grade levels. There are also many students who are not attending school for various other reasons, including some who drop out as soon as they are permitted. Finally, there are large numbers who are insufficiently challenged or who otherwise do not function well in the traditional classroom environment. The SCHOOL will provide an important alternative for these at-risk students.

Who is the SCHOOL designed to serve? The SCHOOL is designed for students aged five to twenty-two and in kindergarten through twelfth grade. The SCHOOL shall provide documentation that its ratio of students is less than 50% of its enrollment in order to maintain its status as a Dropout Prevention and Recovery Program.

Consistent with its mission, the SCHOOL limits enrollment to students who are at risk of dropping out of, or of failing to learn effectively in their current educational settings (or such other educational settings as are available to them in their respective public school districts), and who have a desire for, and whose education can be improved by, a program of online instruction in an independent environment that does not include most ancillary components of a more traditional education. Because the focus is on distance learning, the ability of students to learn dependently in their own homes using an online educational program is an essential element of the SCHOOL's program.

In particular, the SCHOOL is designed to serve the following categories of students who fall within the SCHOOL's definition of "at-risk" and who are therefore eligible to enroll:

- Students who are performing at or above grade level but who seek a more challenging curriculum and, in particular, who wish to capitalize upon the enrichment potential of individually-paced and independently-completed online instruction.
- Students who are performing below grade level and who wish to focus their education exclusively on an independent online course of study, starting at the student's current skill and knowledge level and building forward at a pace determined by the student in collaboration with online instructors.
- Students who have been removed from school for disciplinary reasons but who are committed to, and capable of, regaining their focus on, academic pursuits in the independent and solitary context of online instruction delivered in their homes.
- Students who have been home-schooled in the past but who desire the comprehensive, formal, and standards-based online curriculum available through enrollment in the SCHOOL.
- Students who are transient and seek the stability of a portable online educational program that does not depend upon any particular physical school facility.

A person 22 or older without a high school diploma may enroll in the drop-out prevention and recovery program. The SCHOOL shall report the enrollment of such students and shall comply with annual statewide enrollment caps. The SCHOOL shall not assign these students to classrooms or other settings with students under age 18.

Suspension, Expulsion, Removal, or Permanent Exclusion of Students:

The SCHOOL will comply with the Ohio Revised Code 3313.66, 3313.661, and 3313.662 concerning suspension, expulsion, removal, or permanent exclusion of students. The SCHOOL's policies and procedures concerning such actions will be delineated in the Student Handbook and will respect applicable rights of due process.

Enrollment Area and Lottery Selection Process

The enrollment area of the SCHOOL is the State of Ohio.

The SCHOOL's enrollment, lottery, attendance, and participation policies are available for public inspection.

Focus of the Curriculum: Instructional Program

The curriculum and instruction will be delivered online. The curriculum and instruction will be tied to state standards and state measurements. The instructional plan is developed for each individual. The curriculum and instruction will include:

1. Implementing appropriate online curriculum
2. Planning instructional strategies that relate to student needs
3. Focusing on state assessment instruments and criteria reference tests
4. Developing partnerships with other agencies and businesses

GOAL Digital Academy has and continues to adopt curriculum designed to meet or exceed the Academic Content Standards developed by the joint council of the State Board of Education and Ohio Board of Regents and published by the Ohio Department of Education. The academic standards are benchmarks by which all Ohio achievement testing is based. By following the Department's academic standards, the GOAL Digital Academy curriculum is designed to prepare students for state designated examinations as well as provide appropriate and challenging paths to primary and secondary education.

- **Calendar and Schedule**

The SCHOOL offers a minimum of nine hundred and twenty hours of learning opportunities per academic year in compliance with section 3314.03 (A)(11)(a) of the Ohio Revised Code.

The online aspects of the SCHOOL are continuously offered and the SCHOOL is thus open 24 hours a day, 7 days a week during the school year. The SCHOOL shall open for operation no later than the thirtieth day of September each school year.

The academic year begins July 1 of each year and ends on June 30 of the following year. The date on which students commence curricular activities each year is determined by the SCHOOL.

- **Filtering Software and Devices**

The SCHOOL shall use a filtering device or install filtering software that protects against internet access to materials that are obscene or harmful to juveniles on each computer provided to students for instructional use. Additionally, the SCHOOL shall provide such device or software at no cost to any student who works primarily from the student's residence on a computer obtained from a source other than the school.

- **Description of Teacher and Student Interactions, Including Number of Times and Method of Teacher Visits**

Each enrolled student will have the opportunity to meet with teachers, in person, at least twice yearly. Such meetings will be conducted at the school, a lab, within the student's home, or in other appropriate settings, as arranged by the SCHOOL. In addition to meetings arranged between the SCHOOL and the student, students also have the opportunity to meet with teachers during orientation, at parent-teacher conferences, at an annual open house, during the development of an Individual Career Plan, and during state-mandated testing.

Plan to Achieve Racial and Ethnic Balance; Marketing/Recruiting Plan; Diversity

Because the SCHOOL will serve students statewide, it will seek to enroll students from racial and ethnic categories in proportions which are reflective of the State of Ohio as a whole. As part of its marketing plan, the SCHOOL will recruit students representing a cross section of the state population. Ongoing marketing efforts will be adjusted in an effort to achieve a racial and ethnic balance reflective of the state.

Non-Sectarian

The School will be non-sectarian in its programs, admission policies, employment practices, and all other operations, and will not be operated by a sectarian school or religious institution.

School Dismissal Procedures

Because the online aspects of the SCHOOL are continuously offered, there is no need to dismiss SCHOOL for holidays, school conferences, or other reasons that cause closings of traditional schools. Accordingly, there is no need for school dismissal procedures as referenced in R.C. 3314.03(A)(6)(a).

Fees

There is no tuition charged for enrollment. However, as permitted by law, reasonable fees may be assessed by the SCHOOL for specific courses, for such items as books, supplies, materials and equipment, and for special curricular, co-curricular, or extra-curricular activities, if any. The SCHOOL shall furnish free of charge all necessary textbooks and electronic textbooks. The SCHOOL may also assess fees for a student's failure to return equipment or supplies as required by the SCHOOL, or for the loss or destruction of, or damage to, equipment or supplies provided to the student by the SCHOOL. The payment of fees may be enforced by the withholding of a student's grades and credits. No fees shall be charged to students deemed homeless or who are eligible for free lunch pursuant to the National School Lunch Act.

Dropout Prevention and Recovery Program - the SCHOOL shall comply with dropout prevention and recovery program requirements in accordance with the law.

PART B.

FINANCIAL PLAN

This Financial Plan complies with section 3314.03(A)(15) of the Ohio Revised Code, which requires an estimated school budget for each year of the Successor Contract and a total estimated per pupil expenditure amount for each such year. The SPONSOR's plan to intervene should the SCHOOL experience financial difficulty is to convene a meeting of appropriate SPONSOR Administrators, including the Superintendent, Treasurer, Director, Liaison and other experts to meet with the SCHOOL Board of Directors or representatives thereof, and Administration, and determine where cuts or savings may occur, before any difficulty in paying obligations occurs.

Assumptions Narrative Summary

Revenue : FTE's are projected to remain "flat" in FY20 and increase approximately 25 FTE's in FY's 21-24. Miscellaneous revenues are assumed to remain "flat" throughout the forecast. GDA will continue to make regular adjustments to FTEs that aligns with participation measures. It is assumed that their will be a 10% reduction in FTE funding as a means to "true-up" participation from the prior fiscal year. "Other" receipts do not include JOGS or Tomorrow Center payments in fiscal years 2020-2024.

Staffing: A minor reduction in salaries is projected in FY20 in order to balance the budget. Salaries are projected to remain "flat" throughout this forecast. Any salary increase will be offset through other salary reductions. Benefit costs are anticipated to increase 7% per year in FY21-24.

AP Costs: Cost projections include a 3% inflationary increase for each year. AP variable costs are tied to enrollment. All purchased service costs are outlined in more detail. All the costs have been increase by either increases in enrollment, inflation, or a combination to the two. On the purchased service detail, "Other" includes postage, family engagement activities, continuing education and other contracted services that have not been itemized. Technology services includes ITC fees, curriculum leasing and software development. Connectivity was added to the list of expenditures for disclosure purposes. Capital costs are comprised mainly of technology infrastructure equipment.

BUDGET PLANNING AND APPROPRIATIONS MEASURE

BUDGET PLANNING

The budget presents a comprehensive forecast of all expenditures and receipts of the School based on educational plans and needs. It is a controlled spending plan for the fiscal year. In general, this control, along with sound financial practices, will evolve from a continuous and systematic effort on the part of the Superintendent and the administrative staff to improve budget planning, budget making, and budget administration. The Fiscal Officer is directed to submit a proposed budget and the information used to prepare the proposed budget to the Board of Directors in sufficient time to allow the Board to provide its input and provide a budget to the public for inspection and later adoption by the Board.

The proposed budget shall be prepared with input from the Superintendent and administrators and supervisors designated by the Superintendent. To this end, the Superintendent must request input from those designated early enough to have the information be considered before the proposed budget is prepared.

The Fiscal Officer and Superintendent shall confer with the Board and School personnel in making the budget represent an expression of the interests of all concerned. Proper planning of a budget should then resolve itself into the formulation of sound:

- A. Educational plans – comprising definite statements of goals, policies and curriculum plans of the School;
- B. Spending plans – including a translation of the educational plans into dollars and cents; and
- C. Finance plans – including proposed means and sources for securing adequate revenue to meet school program needs.

Although the immediate concern will be the ensuing fiscal year, budget projections should be prepared for at least five years beyond the current fiscal year. Budget planning will be related to the School's goals, objectives and programs. The policy of the Board is to follow the planned projections as closely as possible.

The budget will reflect in detail the educational programs previously approved, and must contain all information required under Ohio law and guidelines set forth by the State Auditor. Any changes or alterations in programs will have been approved by vote of the Board.

Deadlines for Adoption and Submission of a Budget

Unless exceptions provided by law are met, the Board shall adopt a budget by October 31 of each year.

The budget shall contain at least the items required by Ohio law.

Budget Modification

The budget may be modified throughout the fiscal year by the Board pursuant to Ohio law.

Appropriations measures shall be classified so as to set forth separately the amounts appropriated for each office, department, and division, and within each, the amount appropriated for personal services.

TAX SHELTERED ANNUITIES AND DEFERRED COMPENSATION PLAN

Annuity

The salary payments of any employee of the School may be adjusted at the request of the employee to permit the payment of annuity payments by the Board of Directors out of the employee's total compensation.

Any licensed agent, broker, or company through whom the Board arranges for the placement or purchase of a tax-sheltered annuity for employees shall satisfy the following conditions:

- A. The licensed agent, broker, or company must execute a satisfactory "hold harmless"/indemnity agreement that protects the School, the Board, its officers, and its employees from any liability attendant to procuring the annuity or to the performance of the investment.
- B. The licensed agent, broker, or company must be designated through a signed salary reduction agreement executed by at least five employees of the School or one percent of the full-time employees of the Board, whichever is greater.
- C. Maximum Exclusion Allowance Calculation.

Agents, brokers, and/or company representatives shall have Superintendent or designee approval to advertise, distribute literature, or hold meetings within the school settings.

Deferred Compensation

Employees shall be permitted to defer compensation in accordance with state and federal law.

LEGAL REFS.: O.R.C. §§9.90; 9.91; 148.43

EXPENSE REIMBURSEMENTS

The Board of Directors may only make expenditures of public funds if the expenditure is for a valid public purpose. Expenditures are for a valid public purpose if the expenditure is required for the general good of all School inhabitants. Second, the primary objective of the expenditure must be to further a public purpose, even if an incidental private end is advanced.

The expenditure of public funds for alcoholic beverages is not a proper public purpose. Therefore, neither Board members nor School staff will be reimbursed for alcoholic beverages.

Further, the Auditor of State has concluded that if prior authorization has been given for an expense, the Auditor will not question an expense reimbursement in the course of an audit for coffee, meals, refreshments or other amenities unless there is a clear indication that the reimbursement is arbitrary or incorrect. For this reason, the Board establishes the following expense reimbursement limits. The Board will reimburse up to the federal diem rate for meals. The Board will reimburse for lodging up to the federal diem rate per day.

The Board shall pay the federal mileage rate per mile to employees engaged in School business as defined by IRS regulations or guidelines.

The Board shall issue credit cards to employees for use in School business on a case-by-case basis.

CELL PHONE USAGE

The Board of Directors finds that there are substantial reasons relating to the effective and efficient administration of the schools of the School, other than providing compensation to the employee, for providing certain employees with cell phones or other similar telecommunications equipment. Any cell phone provided to an employee by the Board is to be used primarily for conducting the business of the School.

However, the Board also recognizes that a cell phone that it has provided to an employee may be used for personal calls. Consistent with the Board's obligation to ensure that School resources are expended only for business purposes, the Board may audit the employee's billing records. If the use of a cell phone for a personal call results in an additional cost to the Board, the employee is responsible for reimbursing the Board for the total cost of the call, including any applicable tax. If the Board purchases a plan that has a flat rate for a fixed number of airtime minutes, the user is responsible for reimbursing the Board for the total cost, including any applicable tax, of any personal call that caused the plan threshold to be exceeded.

UNIFORM FEDERAL GRANT GUIDANCE

This policy shall apply to the School's receipt and use of Federal grant awards.

I. PAYMENT

The School shall minimize the time elapsing between the transfer of funds from the United States Treasury or a pass-through entity and the disbursement by the School, whether payment is made by electronic funds transfer, or issuance or redemption of checks, warrants, or payment by other means.

The School shall make timely payments to contractors in accordance with relevant contract provisions.

Use of Resources Before Requesting Cash Advance Payments

To the extent available, the School shall disburse funds available from program income (including repayments to a revolving fund), rebates, refunds, contract settlements, audit recoveries, and interest earned on such funds before requesting additional cash payments.

Use of Banks and Other Institutions as Depositories of Advanced Payments

The School shall account for the receipt, obligation, and expenditure of funds. The School shall deposit and maintain advance payments of Federal funds in insured accounts whenever possible. Advance payments of Federal awards shall be maintained in interest-bearing accounts, unless the following apply:

1. The School receives less than \$120,000 in Federal awards per year;
2. The best reasonably available interest-bearing account would not be expected to earn interest in excess of \$500 per year on Federal cash balances;
3. The depository would require an average or minimum balance so high that it would not be feasible within the expected Federal and non-Federal cash resources; or
4. A foreign government or banking system prohibits or precludes interest bearing accounts.

Interest earned amounts up to \$500 per year may be retained by the School for administrative expenses. Any additional interest earned on Federal advance payments deposited in interest-bearing accounts shall be remitted annually to the Department of Health and Human Services Payment Management System (PMS) through an electronic medium using either the Automated

Clearing House (ACH) network or a Fedwire Funds Service payment. Remittances must include pertinent information of the payee and nature of payment in the memo area (often referred to as “addenda records” by financial institutions), as that will assist in the timely posting of interest earned on federal funds. Pertinent details include the Payee Account Number (PAN) if the payment originated from PMS, or Agency information if the payment originated from the Automated Standard Application for Payments (ASAP), the National Science Foundation (NSF), or another federal agency payment system. Submitted remittances shall comply with the requirements of 2 C.F.R. §200.305.

II. FINANCIAL MANAGEMENT

Direct and Indirect Costs

1. Direct costs are those costs that can be identified specifically with a particular final cost objective, such as a Federal award, or other internally or externally funded activity, or that can be directly assigned to such activities relatively easily with a high degree of accuracy.

These costs may include: salaries and fringe benefits of employees working directly on a grant-funded project; purchased services contracted for performance under the grant; travel of employees working directly on a grant-funded project; materials, supplies, and equipment purchased for use on a specific grant; and infrastructure costs directly attributable to the program (such as long distance telephone calls specific to the program).

2. Indirect costs are those that have been incurred for a common or joint purpose benefitting more than one (1) cost objective, and not readily assignable to the cost objectives specifically benefitted, without effort disproportionate to the results achieved. Costs incurred for the same purpose in like circumstances shall be treated consistently as either direct or indirect costs.

These costs may include: general data processing, human resources, utility costs, maintenance, and accounting.

Federal education programs with supplement not supplant provisions must use a restricted indirect cost rate. In a restricted rate, indirect costs are limited to general management costs. General management costs do not include divisional administration that is limited to one (1) component of the School, the governing body of the School, compensation of the Superintendent, compensation of the chief executive officer of any component of the School, and operation of the immediate offices of these officers.

The salaries of administrative and clerical staff should normally be treated as indirect costs. Direct charging of these costs may be appropriate only if all of the following conditions are met:

- A. Administrative or clerical services are integral to a project or activity.
- B. Individuals involved can be specifically identified with the project or activity.
- C. Such costs are explicitly included in the budget or have the prior written approval of the Federal awarding agency.
- D. The costs are not also recovered as indirect costs.

Where a Federal program has a specific cap on the percentage of administrative costs that may be charged to a grant, that cap shall include all direct administrative charges as well as any recovered indirect charges.

Effort should be given to identify costs as direct costs whenever practical, but allocation of indirect costs may be used where not prohibited and where indirect cost allocation is approved ahead of time by the Ohio Department of Education or the pass-through entity.

Costs

Except where otherwise authorized by statute, costs must meet the following general criteria in order to be allowed under Federal awards:

1. Be necessary and reasonable for the performance of the Federal award and be allocable thereto under these principles.
2. Conform to any limitations or exclusions set forth in these principles or in the Federal award as to types or amount of cost items.
3. Be consistent with policies and procedures that apply uniformly to both Federally-financed and other activities of the School.
4. Be accorded consistent treatment. A cost may not be assigned to a Federal award as a direct cost if any other cost incurred for the same purpose in like circumstances has been allocated to the Federal award as an indirect cost.
5. Be determined in accordance with generally accepted accounting principles (GAAP), except as otherwise provided for in 2 C.F.R. §200.403.

6. Not be included as a cost or used to meet cost sharing or matching requirements of any other Federally-financed program in either the current or a prior period.
7. Be adequately documented.

Financial Management System

The School's financial management system, including records documenting compliance with Federal statutes, regulations, and the terms and conditions of the Federal award, shall be sufficient to permit the preparation of reports required by general and program-specific terms and conditions; and the tracing of funds to a level of expenditures adequate to establish that such funds have been used according to the Federal statutes, regulations, and the terms and conditions of the Federal award. The School's financial management system shall provide for the following:

1. Identification, in its accounts, of all Federal awards received and expended and the Federal programs under which they were received. Federal program and Federal award identification must include, as applicable, the Catalog of Federal Domestic Assistance (CFDA) title and number, Federal award identification number and year, name of the Federal agency, and name of the pass-through entity, if any.
2. Accurate, current, and complete disclosure of the financial results of each Federal award or program in accordance with the reporting requirements set forth in 2 C.F.R. §§200.327 and 200.328.
3. Records that identify adequately the source and application of funds for Federally-funded activities. These records shall contain information pertaining to Federal awards, authorizations, obligations, unobligated balances, assets, expenditures, income and interest and be supported by source documentation.
4. Effective control over, and accountability for, all funds, property, and other assets. The School shall adequately safeguard all assets and assure that they are used solely for authorized purposes.
5. Comparison of expenditures with budget amounts for each Federal award.

III. COMPENSATION – PERSONAL COSTS

Compensation for personal services includes all remuneration, paid currently or accrued, for services of Board employees rendered during the period of performance under the Federal award, including, but not necessarily limited to wages and salaries. Compensation for personal services may also include fringe benefits, as set forth in 2 C.F.R. 200.431. Costs of compensation are

allowable to the extent that they satisfy the specific requirements of O.R.C. §200.430 and that the total compensation for individual employees:

1. Is reasonable for the services rendered and conforms to the established written policies of the School, as consistently applied to both Federal and non-Federal activities;
2. Follows an appointment made in accordance with the School's written policies and meets the requirements of Federal statute, where applicable; and
3. Is determined and supported as provided in 2 C.F.R. §200.430(i), when applicable.

Compensation for employees engaged in work on Federal awards will be considered reasonable to the extent that it is consistent with that paid for similar work in other activities of the School. In cases where the kinds of employees required for Federal awards are not found in the other activities of the School, compensation will be considered reasonable to the extent that it is comparable to that paid for similar work in the labor market in which the School competes for the kind of employees involved.

Standards for Documentation of Personnel Expenses

Charges to Federal awards for salaries and wages must be based on records that accurately reflect the work performed. These records must:

1. Be supported by a system of internal control which provides reasonable assurance that the charges are accurate, allowable, and properly allocated;
2. Be incorporated into the official records of the School;
3. Reasonably reflect the total activity for which the employee is compensated by the School, not exceeding 100% of compensated activities;
4. Encompass both Federally assisted and all other activities compensated by the School on an integrated basis, but may include the use of subsidiary records in accordance with the School's written policies;
5. Comply with the established accounting policies and practices of the School; and

6. Support the distribution of the employee's salary or wages among specific activities or cost objectives if the employee works on more than one Federal award; a Federal award and non-Federal award; an indirect cost activity and a direct cost activity; two or more indirect activities which are allocated using different allocation bases; or an unallowable activity and a direct or indirect cost activity.

LEGAL REFS: 2 C.F.R. §§200.302; 200.303; 200.305; 200.327; 200.328; 200.403; 200.430;

Adopted: January 27, 2017

CREDIT CARD POLICY

The Board of Directors recognizes the efficiency and convenience afforded the day-to-day operation of the School by establishing a credit card account. A “credit card account” is any bank-issued credit card account, store-issued credit card account, financial institution-issued credit card account, financial depository-issued credit card account, affinity credit card account, or any other card account allowing the holder to purchase goods or services on credit or to transact with the account, and any debit or gift card account related to the receipt of moneys. A “credit card account” does not include a procurement card account, gasoline or telephone credit card account, or any other card account where merchant category codes are in place as a system of control for use of the card account.

A credit card account will be established in the name of the School and will be used for incidental purchases authorized by the Fiscal Officer. All presentation instruments related to the credit card account shall bear the School’s name, including cards and checks. Credit cards shall not be used to circumvent the general purchasing procedures required by law and the policies of the Board. Purchases using the credit card shall be supported by a signed requisition and an itemized receipt. The Fiscal Officer shall retain general possession and control of the credit card account and presentation instruments related to the account, including credit cards and checks. The credit card must be secured at all times in the Fiscal Officer’s office, with request being made for use to the Fiscal Officer.

Officers or Positions Authorized to Use Credit Card

Only officers/employees of the Board who have received authorization from the Fiscal Officer may authorize and approve credit card transactions. The Fiscal Officer shall document the name and position title of any School officer/employee authorized to use the credit card.

Acquisition, Use and Management of Credit Card

Before an officer/employee may obtain and use the credit card account, credit card, or any checks associated with such account, he/she must sign an acknowledgment that he/she has read and understands this Board policy.

Expenses for which the Credit Card Account May be Used

The credit card may be used only for official business and for the benefit of the School. Credit card expenditures for the following are strictly prohibited: entertainment, alcoholic beverages, personal services, and cash advances/withdrawals. A School officer/employee who utilizes the credit card in violation of Board policy may be subject to disciplinary action, including termination.

Cash Withdrawals and Maximum Credit Limit

No authorized user shall make a cash withdrawal/advance using the credit card. Credit limits will be established by the Fiscal Officer and Board of Directors.

Submission of Itemized Receipts

Receipts for any transaction involving the credit card must be obtained by the officer/employee using the card to incur the expense and submitted to the Fiscal Officer at the time that the credit card is returned. If an officer/employee fails to submit a receipt to the Fiscal Officer to document a transaction involving the credit card, the officer/employee shall be liable for the expense.

Credit Card Issuance, Reissuance, Cancellation, and Reporting Lost or Stolen Credit Cards

Only the School Fiscal Officer is authorized to request the issuance, reissuance, or cancellation of a School credit card. If a credit card is lost or stolen, the officer/employee responsible for the credit card's use and possession shall immediately report that fact to the Fiscal Officer. The Fiscal Officer shall immediately report that the credit card has been lost or stolen to the company that issued the School the credit card, and shall take all action necessary to cancel that credit card so as to ensure that unauthorized purchases are not made with the card.

Misuse of the Credit Card

The following actions/omissions by an officer/employee qualify as misuse of the credit card and may subject the individual to disciplinary action, including termination or other sanctions:

- Use of the credit card for personal expenses
- Use of the credit card for expenses beyond those authorized by the Purchasing Agent and Fiscal Officer
- Permitting any other person to use or possess the credit card
- Using the credit card in any way which violates state or federal law or Board policy.
- Using the credit card for cash advances.

Knowing misuse of the School's credit card is a criminal offense under O.R.C. §2913.21.

Report of Credit Card Rewards

The Fiscal Officer shall annually file a report with the Board detailing all rewards received based on the use of the credit card account.

TIME AND EFFORT REPORTING

The School shall comply with the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Pursuant to 2 C.F.R. §200.430, the School must require certification of effort to document salary expenses charged directly or indirectly against federally sponsored projects. This policy is designed to ensure that compensation for employment services, including salaries and wages, is allocable and properly expended, and that variances from the budget are reconciled.

Compensation for employment services includes all remuneration, paid currently or accrued, for services of employees rendered during the period of performance under the federal award, including, but not necessarily limited to, wages and salaries. Compensation for personal services may also include fringe benefits, which are addressed in 2 C.F.R. §200.431. Costs of compensation are allowable to the extent that they satisfy the specific requirements of this policy, and that the total compensation for individual employees:

1. Is reasonable for the services rendered, conforms to the School's established written policy, and is consistently applied to both federal and non-federal activities; and
2. Follows an appointment made in accordance with the School's written policies and meets the requirements of federal statute, where applicable.

Time and Effort Reports

Charges to federal awards for salaries and wages must be based on records that accurately reflect the work performed. Those records must:

1. Be supported by a system of internal controls which provide reasonable assurance that the charges are accurate, allowable, and properly allocated;
2. Be incorporated into the official records of the School;
3. Reasonably reflect the total activity for which the employee is compensated by the School, not exceeding 100% of the compensated activities;
4. Encompass both federally assisted and other activities compensated by the School on an integrated basis;
5. Comply with the School's established accounting policies and practices;
6. Support the distribution of the employee's salary or wages among specific activities or cost objectives if the employee works on more than one (1) federal award, a federal award and non-federal award, an indirect cost activity and a direct cost activity, two (2) or more indirect activities which are allocated using different allocation bases, or an unallowable activity and a direct or indirect cost activity.

The School shall follow time and effort requirements imposed by the pass-through entity to the extent that they are more restrictive than the federal requirements. The Fiscal Officer is responsible for all employee effort reports. Individually reported data will be made available only to authorized auditors.

Reconciliations

Budget estimates are not used as support for charges to federal awards, but may be used for interim accounting purposes provided that: (a) the system used by the School to establish budget estimates produces reasonable approximations of the activity actually performed; (b) any significant changes in the corresponding work activity are identified by the School and entered into the School's records in a timely manner; and (c) the School's internal controls include a process to review after-the-fact interim charges made to a federal award based on budget estimates and ensure that all necessary adjustments are made so that the final amount charged to the federal award is accurate, allowable, and properly allocated.

LEGAL REFS.: 2 C.F.R. §§200.430, 200.431

Adopted: January 27, 2017

PROCUREMENT WITH FEDERAL GRANTS/FUNDS

Procurement of all supplies, materials, equipment, and services paid for with federal funds or School matching funds shall be made in accordance with all applicable federal, state, and local statutes and/or regulations, the terms and conditions of the federal grant, and Board policy.

The Superintendent shall maintain a procurement and contract administration system in accordance with the "Procurement Standards" set forth in §§2 C.F.R. 200.317-.326 for the administration and management of federal grants and federally-funded programs. The School shall maintain a contract administration system that requires contractors to perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders. Except as otherwise noted, procurement transactions shall conform to the provisions of the School's Uniform Grant Guidance Board policy.

Board employees, officers, and agents who have purchasing authority shall abide by the standards of conduct governing conflicts of interest and governing the actions of employees, officers, and agents engaged in the selection, award, and administration of contracts set forth in Board policy and Ohio Ethics Law.

The School shall avoid acquisition of unnecessary or duplicative items. Consideration shall be given to consolidating or breaking out procurements to obtain a more economical purchase. Where appropriate, an analysis shall be made of lease versus purchase alternatives, and any other appropriate analysis to determine the most economical approach. To foster greater economy and efficiency, the School may enter into state and local intergovernmental agreements where appropriate for procurement or use of common or shared goods and services.

Competition

All procurement transactions shall be conducted in a manner that encourages full and open competition. In order to ensure objective contractor performance and eliminate unfair competitive advantage, the School shall exclude any contractor that has developed or drafted specifications, requirements, statements of work, or invitations for bids or requests for proposals from competition for such procurements.

Some of the situations considered to be restrictive of competition include, but are not limited to:

1. Placing unreasonable requirements on firms in order for them to qualify to do business;
2. Requiring unnecessary experience and excessive bonding requirements;
3. Noncompetitive contracts to consultants that are on retainer contracts;

4. Noncompetitive pricing practices between firms or between affiliated companies;
5. Organizational conflicts of interest;
6. Specifying only a 'brand name' product instead of allowing for an "equal" product to be offered and describing the performance or other relevant requirements of the procurement;
7. Any arbitrary action in the procurement process.

The School shall not use statutorily or administratively imposed state, local, or tribal geographical preferences in the evaluation of bids or proposals, except where an applicable federal statute expressly mandates or encourages a geographic preference. When the School is contracting for architectural and engineering services, geographic location may be a selection criterion provided its application leaves an appropriate number of qualified firms, given the nature and size of the project, to compete for the contract.

If the School uses a pre-qualified list of persons, firms or products to acquire goods and services, such list shall include enough qualified sources as to ensure maximum open and free competition.

Solicitation Language

All solicitations must incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description shall not, in competitive procurements, contain features which unduly restrict competition. The description may include a statement of the qualitative nature of the material, product or service to be procured and, when necessary, shall set forth those minimum essential characteristics and standards to which it shall conform if it is to satisfy its intended use. Detailed product specifications should be avoided if at all possible. When it is impractical or uneconomical to make a clear and accurate description of the technical requirements, a "brand name or equivalent" description may be used as a means to define the performance or other salient requirements of procurement. The specific features of the named brand which shall be met by offers shall be clearly stated; and identify all requirements which the offerors shall fulfill and all other factors to be used in evaluating bids or proposals.

The Board will not approve any expenditure for an unauthorized purchase or contract.

Procurement Methods

The School shall utilize one of the following methods of procurement:

1. Micro-Purchases

The aggregate dollar amount does not exceed the threshold established in 2 C.F.R. §200.67 or by the Office of Federal Financial Management, whichever is greater. To the extent practicable, the School will distribute such purchases equitably among qualified suppliers. Micro-purchases may be awarded without soliciting competitive bids if the Board considers the price reasonable.

2. Small Purchases

Small purchase procedures provide for relatively simple and informal procurement methods for securing services, supplies, and other property that does not exceed the competitive bid threshold. Small purchase procedures require that price or rate quotations shall be obtained from an adequate number of qualified sources.

3. Sealed Bids

Sealed, competitive bids shall be obtained when the purchase of, and contract for, single items of supplies, materials, or equipment requires competitive bidding under Ohio law or Board policy, and when the Board determines to build, repair, enlarge, improve, or demolish a school building/facility the cost of which will exceed \$50,000.

In order for sealed bidding to be feasible, the following conditions shall be present:

- A. A complete, adequate, and realistic specification or purchase description is available;
- B. Two (2) or more responsible bidders are willing and able to compete effectively for the business; and
- C. The procurement lends itself to a firm fixed price contract and the selection of the successful bidder can be made principally on the basis of price.

If sealed bids are used, the following requirements apply:

- A. Bids shall be solicited in accordance with the provisions of state law and Board policy. Bids shall be solicited from an adequate number of qualified suppliers, providing them sufficient response time prior to the

date set for the opening of bids. The invitation to bid shall be publicly advertised.

- B. The invitation for bids, which will include product/contract specifications and pertinent attachments, must define the items and/or services required in order for the bidder to properly respond.
- C. All bids will be opened at the time and place prescribed in the invitation for bids; bids will be opened publicly.
- D. A firm fixed price contract award will be made in writing to the lowest responsive and responsible bidder. Where specified in bidding documents, factors such as discounts, transportation cost, and life cycle costs shall be considered in determining which bid is lowest. Payment discounts may only be used to determine the low bid when prior experience indicates that such discounts are usually taken.
- E. The Board reserves the right to reject any or all bids for sound documented reason(s).

4. Competitive Proposals

Procurement by competitive proposal is normally conducted with more than one (1) source submitting an offer and either a fixed price or cost-reimbursement type contract is awarded. It is generally used when conditions are not appropriate for the use of sealed bids or in the case of a recognized exception to the sealed bid method.

If this method is used, the following requirements apply:

- A. Requests for proposals shall be publicized and identify all evaluation factors and their relative importance. Any response to the publicized requests for proposals shall be considered to the maximum extent practical.
- B. Proposals shall be solicited from an adequate number of sources.
- C. The School shall use its written method for conducting technical evaluations of the proposals received and for selecting recipients.
- D. Contracts shall be awarded to the responsible firm whose proposal is most advantageous to the program, with price and other factors considered.

- E. The School may use competitive proposal procedures for qualifications based procurement of architectural/engineering (A/E) professional services whereby competitors' qualifications are evaluated and the most qualified competitor is selected, subject to negotiation of fair and reasonable compensation. The method, where price is not used as a selection factor, can only be used in procurement of A/E professional services. It cannot be used to purchase other types of services though A/E firms are a potential source to perform the proposed effort.

5. Noncompetitive Proposals

Procurement by noncompetitive proposals is procurement through solicitation of a proposal from only one source and may be used only when one or more of the following circumstances apply:

- A. The item is available only from a single source
- B. The public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation
- C. The federal awarding agency or pass-through entity expressly authorizes noncompetitive proposals in response to a written request from the School
- D. After solicitation of a number of sources, competition is determined to be inadequate

Contract/Price Analysis

The School shall perform a cost or price analysis in connection with every procurement action in excess of the Simplified Action Threshold established in 2 C.F.R. §200.88, or by the Office of Federal Financial Management, whichever is greater, including contract modifications. The method and degree of analysis is dependent on the facts surrounding the particular procurement situation but the School shall come to an independent estimate prior to receiving bids or proposals.

When performing a cost analysis, the School shall negotiate profit as a separate element of the price for each contract in which there is no price competition and in all cases where cost analysis is performed. To establish a fair and reasonable profit, consideration is given to the complexity of the work to be performed, the risk borne by the contractor, the contractor's investment, the amount of subcontracting, the quality of its record of past performance, and industry profit rates in the surrounding geographical area for similar work.

Time and Materials Contracts

The School uses a time and materials type contract only after a determination that no other contract is suitable if the contract includes a ceiling price that the contractor exceeds at its own risk. Time and materials type contract means a contract whose cost to the School is the sum of (1) the actual costs of materials; and (2) direct labor hours charged at fixed hourly rates that reflect wages, general and administrative expenses, and profit.

Since this formula generates an open-ended contract price, a time-and-materials contract provides no positive profit incentive to the contractor for cost control or labor efficiency. Therefore, the School sets a ceiling price for each contract that the contractor exceeds at its own risk. Further, the School shall assert a high degree of oversight in order to obtain reasonable assurance that the contractor is using efficient methods and effective cost controls.

Suspension and Debarment

The Board will award contracts only to responsible contractors possessing the ability to perform successfully under the terms and conditions of the proposed procurement. All purchasing decisions shall be made in the best interests of the School. Consideration will be given to such matters as (1) contractor integrity; (2) compliance with public policy; (3) record of past performance; and (4) financial and technical resources.

The Superintendent shall have the authority to suspend or debar a person/corporation, for cause, from consideration or award of further contracts.

The School shall not subcontract with or award subgrants to any person or company who is debarred or suspended. In accordance with 2 C.F.R. §180.300, for contracts over \$25,000, the School shall confirm that the vendor is not debarred or suspended by either checking the federal government's System for Award Management; collecting a certification from the vendor; or adding a clause or condition to the covered transaction with that vendor.

Bid Protest

The following procedure shall be used to resolve disputes relating to procurements.

A bidder who wishes to file a bid protest shall file such notice and follow procedures prescribed by the Request for Proposals (RFPs) or the individual bid specifications package, for resolution. Bid protests shall be filed in writing with the Superintendent within seventy-two (72) hours of the opening of the bids in protest.

Within five (5) days of receipt of a protest, the Superintendent shall review the protest as submitted and render a decision regarding the merits of the protest and any impact on the acceptance and rejection of bids submitted. Notice of the filing of a bid protest shall be communicated to the Board and shall be so noted in any subsequent recommendation for the acceptance of bids and awarding of contracts.

Failure to file a notice of intent to protest, or failure to file a formal written protest within the time prescribed, shall constitute a waiver of proceedings.

Maintenance of Procurement Records

The School shall maintain records sufficient to detail the history of all procurements. These records will include, but not be limited to rationale for the method of procurement, selection of contract type, contractor selection or rejection, and the basis for the contract price (including a cost or price analysis).

Contracting with Small and Minority Businesses, Women's Business Enterprises, and Labor Surplus Area Firms

The School will take all necessary affirmative steps to assure that minority businesses, women's business enterprises, and labor surplus area firms, as identified by the U.S. Department of Labor, are used, when possible. Affirmative steps will include:

1. Placing qualified small and minority businesses and women's business enterprises on solicitation lists;
2. Assuring that small and minority businesses and women's business enterprises are solicited whenever they are potential sources;
3. Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses and women's business enterprises;
4. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses and women's business enterprises;
5. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce; and

6. Requiring the prime contractor, if subcontracts are to be let, to take the affirmative steps listed in Sections (1) through (5) above.

BOARD-SUPPLIED AMENITIES AND *DE MINIMIS* GIFTS

The Board of Directors determines that the expenditure of School funds for the purchase of coffee, meals, refreshments and other amenities, and for *de minimis* gifts in recognition of service to the School, not exceeding \$25.00 in value, for its officers, employees and other persons attending School functions, is necessary and furthers a public purpose. The Board believes that providing such amenities and tokens of appreciation serve to enhance morale, encourage staff and community participation in educational decision making, and permits work to be completed without interruption for meals.

All such expenditures must receive the prior authorization of the Superintendent. No School funds may be expended for the purchase of alcoholic beverages.

FULL-TIME EQUIVALENT (“FTE”) TRUE-UP POLICY

Background

Pursuant to O.R.C. §3314.08, the School receives foundation funding. Foundation funding is determined by the School’s annualized full-time equivalent (“FTE”) enrollment. As an e-school, foundation funding is further affected by the percent of time for which the School obtains documentation of each student completing learning opportunities. The School’s final FTE is not known until after the fiscal year concludes and is subject to further adjustment by the Ohio Department of Education (“ODE”). Although final FTE is not known until after the fiscal year, the School receives foundation funding payments on a monthly basis during the fiscal year. These monthly payments are based on estimates of enrollment.

Accordingly, the School recognizes that after the fiscal year concludes, the School’s final FTE may not reflect the monthly estimates of enrollment. Furthermore, the School recognizes that after the fiscal year concludes, the foundation funding received may need to be reconciled with ODE.

Applicable Agreements

Adjustments to FTE may affect payment obligations under certain agreements with third parties (“Applicable Agreements”). Applicable Agreements may include, but are not limited to, agreements where payment is based on a percentage of funds received or the School’s FTE. Where adjustments occur after payment is made, the School is required to reconcile payment under Applicable Agreements (“True Up”).

The Governing Authority recommends that, where practicable, the School avoid entering agreements that require True Up.

True Up Payments

If a True Up is required, the School shall not begin True Up until after both:

1. ODE has issued its final FTE adjustment for the applicable fiscal year;; and
2. any and all appeals involving the School’s FTE calculation are adjudicated.

Terms of True-Up

Unless the Applicable Agreement includes provisions for conducting a True Up, any True Up shall be coordinated with the Third Party to complete the True Up in a reasonable amount of time.

Adopted: January 3, 2019

STALE CHECKS

If a check issued by the GOAL Digital Academy Governing Authority is not deposited or cashed by the designated payee within ninety (90) days of its issuance, the check will be considered void and all funds designated for that transaction will be transferred to the Governing Authority's Unclaimed Funds Account. Documentation relative to the stale check will be retained by the Fiscal Officer in an "unclaimed funds" file.

Funds in the Governing Authority's Unclaimed Funds Account may be released to the designated payee only after the designated payee has made a written request for payment to the School's Fiscal Officer describing the circumstances causing the delay in depositing/cashing the check. With the Fiscal Officer's authorization, the funds designated for a relevant transaction will be released to the payee.

After five years in the Unclaimed Funds Account, such funds will be transferred to the Governing Authority's General Fund, upon authorization from the Governing Authority, in accordance with the procedures set forth in Ohio law.

For purposes of "cash-basis" accounting, the cash balance in the Unclaimed Funds Account shall be reported as "non-spendable."

**EMPLOYEE DISHONESTY AND FAITHFUL PERFORMANCE OF DUTY
INSURANCE POLICY**

The Board shall use an employee dishonesty and faithful performance of duty insurance policy, rather than a surety bond, to cover losses caused by the fraudulent or dishonest actions of, and the failure to perform a duty prescribed by law for, officers, employees, or appointees that would otherwise be required to give an individual surety bond to qualify for the office or employment before entering upon the discharge of duties imposed by the office or employment. Said insurance policy shall apply to the officer, employee, or appointee before the beginning of the individual's term of office or employment and the officer, employee, or appointee shall not commence the discharge of duties until coverage is documented with the Board.

The coverage amount for an officer, employee, or appointee under an employee dishonesty and faithful performance of duty insurance policy shall be equal to or greater than \$100,000.

EXHIBIT 1

PART C.

MANAGEMENT AND ADMINISTRATION PLAN

Governing Authority Selection and Roles and Responsibilities

The GOAL Digital Academy Board of Directors is the governing authority of the SCHOOL. The Board of Directors shall have at least five members and shall be selected pursuant to the Code of Regulations.

School Management

The SCHOOL's Superintendent, who is the chief operating officer of the SCHOOL, has primary responsibility for day-to-day operations of the SCHOOL. The Superintendent oversees and coordinates the daily operation and management of the SCHOOL. The Superintendent also serves as a liaison between the SCHOOL and the SPONSOR, as well as between the SCHOOL and its contractors

Disposition of Employees If Contract Terminated or Not Renewed

In the event that this Contract is terminated or not renewed pursuant to Section 3314.07, the SCHOOL shall have no further contractual obligation to employees, except as may otherwise be provided in the individual contract of employment. The SPONSOR shall reemploy its former employees who are within the three-year leave of absence period prescribed by Section 3314.10 of the Ohio Revised Code in accordance with the SPONSOR's policy concerning the same. Otherwise, reasonable efforts will be made to out-place the SCHOOL's employees. However, nothing in this paragraph shall be construed as creating an expectancy of continued employment by the SCHOOL or the SPONSOR.

Procedure for Resolving Disputes or Differences of Opinion

If, through the informal processes of discussion and negotiation, the Board of Directors and the SPONSOR are unable to resolve differences arising from the operation of the SCHOOL or the interpretation of this Contract, either party may request the services of a mediator appointed by the Federal Mediation and Conciliation Service (FMCS) in accordance with the regular procedures of that Service. If, sixty (60) days after the mediation process is commenced, the parties are still unable to reach agreement, the parties may, by mutual consent, proceed to binding arbitration of the dispute. Such arbitration shall be conducted by an arbitrator selected by mutual agreement of the parties or, if the parties are unable to agree on such selection, by an arbitrator appointed by the FMCS in accordance with its regular procedures. Any fees required by the FMCS or the arbitrator shall be borne by the parties equally; otherwise, each party shall bear its own costs. If the parties, after the failure of the mediation process described above, do not mutually agree to proceed to binding arbitration, each shall then be left to whatever legal remedies may exist under law.

Summary of Health and Other Benefits Offered to Employees

All full-time employees over 30 hours per week shall receive applicable benefit package.

Assessment and Accountability Plan

SPONSOR will engage in a high-stakes review of SCHOOL's performance prior to any renewal of this Contract, and at least once every five years and such review shall be cumulative for performance measures over the entire five-year term of the contract as well as year by year, and the SCHOOL's progress with respect to achievement of the academic goals described below shall be evaluated according to the standards, and using the methods of measurement, described below, among others. Due consideration shall be given to the academic achievement of student at the time they enter the SCHOOL and to circumstances extrinsic to the SCHOOL that may affect the performance of the students while enrolled. The goals and methods of measurement may be augmented or modified from time to time by agreement of the parties. The SCHOOL's failure to meet required standards and conditions may result in the SCHOOL's suspension, probation termination or closure.

The SCHOOL shall also be assessed as described in Section 3314.017 of the Ohio Revised Code. Students will be required to demonstrate competency in the academic standards set forth by the Ohio Department of Education. Since the SCHOOL's students will be participating in the State's achievement testing program, the curriculum core will follow state standards in each academic area.

All students will participate in all levels of state mandated achievement testing. Students will complete all academic requirements established by law or this Contract. Seniors will also complete a Senior Project that helps students prepare for their post-secondary lives.

Accountability Standards: The SCHOOL shall assess its own performance, and the SPONSOR shall assess the performance of the SCHOOL, pursuant to the criteria set forth in the Accountability Standards incorporated by reference herein, as Exhibit 3. Exhibit 3 constitutes the agreed-upon academic, financial, organizational, and governance standards that the SCHOOL and SPONSOR will use to evaluate the performance of the SCHOOL during the term of the Contract.

To be considered for a Renewal Contract, the SCHOOL is expected to have achieved the standards required to avoid closure mandated by law, have substantially complied with the requirements of this Contract, and have gone through and passed a high stakes review of its performance academically, operationally, governance-related and fiscal performance. The Accountability Standards establish the SPONSOR's minimum expectations for the SCHOOL.

The Ohio Department of Education continues to monitor the performance of drop-out prevention and recovery community schools state-wide and there may be changes over time to guidance issued by the Department. Accordingly, the standards set forth in Exhibit 3 are also subject to change by mutual agreement of the SPONSOR and the SCHOOL,

provided however, the SCHOOL understands the need for the SPONSOR to comply with the performance requirements in law, regulation, rule or ODE guidance. Additionally, the SPONSOR and the SCHOOL reserve the right to vary this Assessment and Accountability Plan and Exhibit 3 by mutual agreement, as circumstances warrant.

Participation in Testing and Assessments: The SCHOOL uses traditional assessment tools to determine achievement levels of individual students, independent of conventional grade-level designations. The goal is to advance each individual student to higher levels of performance in each subject area. In addition to state mandated test, off-year assessments may be conducted through use of other standardized tests. Other assessment tools are utilized in order to facilitate interventions, and modifications of instruction by the online teachers that enhance the success of the students. The administrative team monitors the instructional process so that appropriate modifications occur.

Statewide mandated achievement assessments, diagnostic assessments, or other tests or assessments (including any required to determine value-added progress) are administered as required by law. Unless exempted by law, students are required to participate in tests and assessments applicable to them.

Graduation Requirements: In order to graduate, students must have satisfied the applicable requirements for graduation under law.

EXHIBIT 3

PERFORMANCE AND ACCOUNTABILITY STANDARDS

The SCHOOL will meet minimum academic expectations if it "Achieves Standards" in Primary Measures. The SCHOOL Achieves Standards if for each Primary Indicator it either (1), "meets standards" or "exceeds standards" for a majority of academic years in the Term, or (2) "meets standards" or "exceeds standards" for the two most recent academic years in the Term. Inability to achieve each one of the standards in Primary Measures does not prohibit renewal, but may require a corrective action plan. If the SCHOOL does not Achieve Standards in Primary Measures, the SPONSOR more closely considers the SCHOOL's performance on secondary indicators to evaluate the SCHOOL's overall academic performance.

SUSPENSION AND CLOSING PROCEDURES

THE OHIO DEPARTMENT OF EDUCATION CLOSING ASSURANCES AND
REQUIREMENTS ARE INCORPORATED HEREIN BY REFERENCE

Community School: School Suspension and/or School Closing Procedures

Effective date: July 1, 2010

Updated: May 2018

Community school sponsors primarily are responsible for ensuring an orderly process is followed when a school closes or operations are suspended.

Closure Statute

Under state law ([Ohio Revised Code 3314.023](#)), community school sponsors must monitor and oversee their schools' compliance with law, administrative rules and contract provisions, including requirements related to school closure. Specifically, ORC 3314.023 requires:

- *A sponsor shall provide monitoring, oversight, and technical assistance to each school that it sponsors. In order to provide monitoring, oversight, and technical assistance . . .*
- *[Sponsors] Having in place a plan of action to be undertaken in the event the community school experiences financial difficulties or closes prior to the end of a school year.*

Suspension Statute

[ORC 3314.072](#) establishes the conditions under which a school may be suspended, along with a school's procedural rights. Provisions include:

- *For any of the reasons prescribed in division (B)(1)(a) to (d) of section 3314.07 of the Revised Code, the sponsor of a community school established under this chapter may suspend the operation of the school only if it first issues to the governing authority notice of the sponsor's intent to suspend the operation of the contract. Such notice shall explain the reasons for the sponsor's intent to suspend operation of the contract and shall provide the school's governing authority with five business days to submit to the sponsor a proposal to remedy the conditions cited as reasons for the suspension.*
- *The sponsor shall promptly review any proposed remedy timely submitted by the governing authority and either approve or disapprove the remedy. If the sponsor disapproves the remedy proposed by the governing authority, if the governing authority fails to submit a proposed remedy in the manner prescribed by the sponsor, or if the governing authority fails to implement the remedy as approved by the sponsor, the sponsor may suspend operation of the school pursuant to procedures set forth in division (D) of this section.*
- *If division (B) of this section applies or if the sponsor of a community school established under this chapter decides to suspend the operation of a school as permitted in division (C)(2) of this section, the sponsor shall promptly send written notice to the governing authority stating that the operation of the school is immediately suspended, and explaining the specific reasons for the suspension. The notice shall state that the governing authority has five business days to submit a proposed remedy to the conditions cited as reasons for the suspension or face potential contract termination.*
- *Upon receipt of the notice of suspension prescribed under division (D)(1) of this section, the governing authority shall immediately notify the employees of the school and the parents of the students enrolled in the school of the suspension and the reasons therefore, and shall cease all school operations on the next business day.*

Overview

Sponsors provide and execute a plan for an orderly conclusion of a community school's affairs when a community school is closed or suspended for any reasons permitted by law and/or the contract between the sponsor and the school. A school is considered closed or suspended when instruction has ceased and the governing authority or sponsor has issued an official notice that includes the reason for and date of the school's closure or suspension. A community school also is considered closed if the Department issued a notice to a school under the state's automatic closure law, [ORC 3314.35](#). In the case of both suspension and closure, the sponsor and an authorized representative of the governing authority complete and sign the Suspension and Closing Assurance Template. Community school sponsors make sure a community school's governing authority takes all reasonable and required actions to fully address suspension or closing issues. If a school's governing authority is no longer able or willing to fulfill obligations with respect to orderly closure, the school's sponsor assumes responsibility for all closure activities. A plan for school closure is a required part of the school's contract with the sponsor. Final preparations, as outlined in the plan, should be in place prior to the last day students are in attendance.

Note:

- Closing procedures detailed in this guidance or the accompanying template are not applicable to school mergers.
- Procedures for school closures that are the result of settlement agreements may differ based on the provisions of the settlement. Schools and sponsors are advised to consult their legal counsel.

Sponsors must submit a Suspension and Closing Assurance Template for each closed community school. By completing this assurance, sponsors attest that all necessary notifications and actions are completed.

When possible, the final FTE review should be completed within seven business days of the school ceasing operations or within seven business days of the area coordinator's notification of the school's suspension or closing by the Department. Final FTE reviews should be completed prior to transfer of original student records to the district(s). Sponsors must monitor the school's actions to assure both the FTE review and fiscal audit are scheduled in a timely fashion. If the school fails to schedule these activities, the sponsor must step in and make the necessary arrangements.

Sponsors should begin completing the Suspension and Closing Assurance Template as soon as possible after the suspension/closure of the school.

For mid-year closure or suspension, an estimated timeline for closure activities must be submitted to the Office of Community Schools within 10 days of notification. In the case of closure at the end of the school year, sponsors shall submit an estimated timeline for closure activities to the Office of Community Schools, via Epicenter, no later than May 31. Sponsors shall use the Suspension and Closing Assurance Template for the estimated timeline.

The updated Suspension and Closing Assurance Template shall be submitted to the Office of Community Schools, via Epicenter, quarterly (July 1, Oct. 1, Jan. 1 and April 1), noting which activities are complete and which are not yet complete until the process is finished and closing assurances are submitted. The quarterly submissions shall include a narrative explaining any delays and the sponsor's target date for submitting the final closing assurances.

If refunds are generated at a later date, the sponsor shall follow the instructions in the Preparation of Itemized Financials section of the template and complete the Final Payments and Adjustments section.

The Suspension and Closing Assurance Template provides step-by-step guidance to assist sponsors in meeting their responsibilities when one of their schools suspends operations or closes.

Records

Sponsors assure that all school records needed by the Ohio Department of Education, Ohio Auditor of State, U.S. Department of Education and other interested entities are secured and available as needed during the closeout process. Records generally describe an account in permanent form, preserving knowledge or information about facts, transactions or events maintained and kept for the proper administration of the school, including student, staff and administrative/financial information. Please note, the following categories and types of records should not be considered as the entire list of documents that might be examined during a closing

procedure. Additional records may be requested during an FTE review or final audit. (Additional information is available in the Department's FTE Review Manual.)

Student Records

Student records include all educational, special education and other documents in the school's possession that relate to a particular student. Student records include, but are not limited to: documents normally found in permanent record folders that are necessary for reviews and audits; attendance records that detail enrollment and attendance history; grades and grade levels achieved; transcripts, courses completed and grades for each course, particularly for students enrolled in grades 9-12 and for graduates of the school; proof of residency documents that identify a student's home district; FTE Detail reports, with names and SSID numbers that can be used to match names to the FTE Detail report with randomly selected SSIDs obtained by the area coordinator; special education information and folders; and other such information that may be maintained and kept in a student permanent record folder.

Schools must retain copies of all student records necessary to complete the final FTE review and financial audit.

Staff Records

Staff records include, but are not limited to: employment agreements or contracts; salary and benefits information; attendance and leave information; employee licenses; Local Professional Development Committee (LPDC) status and record of continuing education; payroll and withholding documents; and other such information that may be maintained in an employee record folder.

Administrative/Financial Records

Administrative/financial records include, but are not limited to: lease or rental agreement; deed if property is owned; inventories of furniture and equipment, including purchase price, source of funds for payment, date purchased and property tag number; bank and financial reports, including all financial statements created by the fiscal officer; bank statements and checks; schedule of unpaid debt detailing amount, vendor and date of obligation; invoices, receipts, vouchers and purchase orders that detail expenditures; grant records, including detail of federal and state grant awards and final expenditure reports and contracts; and other such information that may be maintained to serve as the administrative/financial records for the school.

Record Retention

Sponsors shall secure all school records (student, personnel, fiscal, etc.) prior to closing. All such records shall be maintained according to applicable records retention schedules. Records retention is governed by state and federal law and governing authority policy. Additional information regarding state requirements is available [here](#). Federal records retention schedules are available [here](#). Additional information is available in the Student Records section of the Suspension and Closing Assurance Template.

Community school sponsors are responsible for securing all records prior to closing and maintaining records in accordance with all applicable retention schedules.
