- **Benchmark Assessment dates are firm; plan your instruction around testing on those exact days.**
- Progress Monitoring dates can be flexed by no more than one week with prior approval.
- **No calculators or multiplication charts of any kind may be used.**
- Math questions are timed at 3 minutes. ELA questions are timed at ___ minutes.
- Baseline benchmarks begin at the grade level and adapt with student responses.
- Assessments after the baseline begin at the STAR level from the most previous assessment, and adapt.

- Renaissance Learning has recommended, for best results, the administration of the math screener test first and reading screener test second.
