# Art Class Gives Back

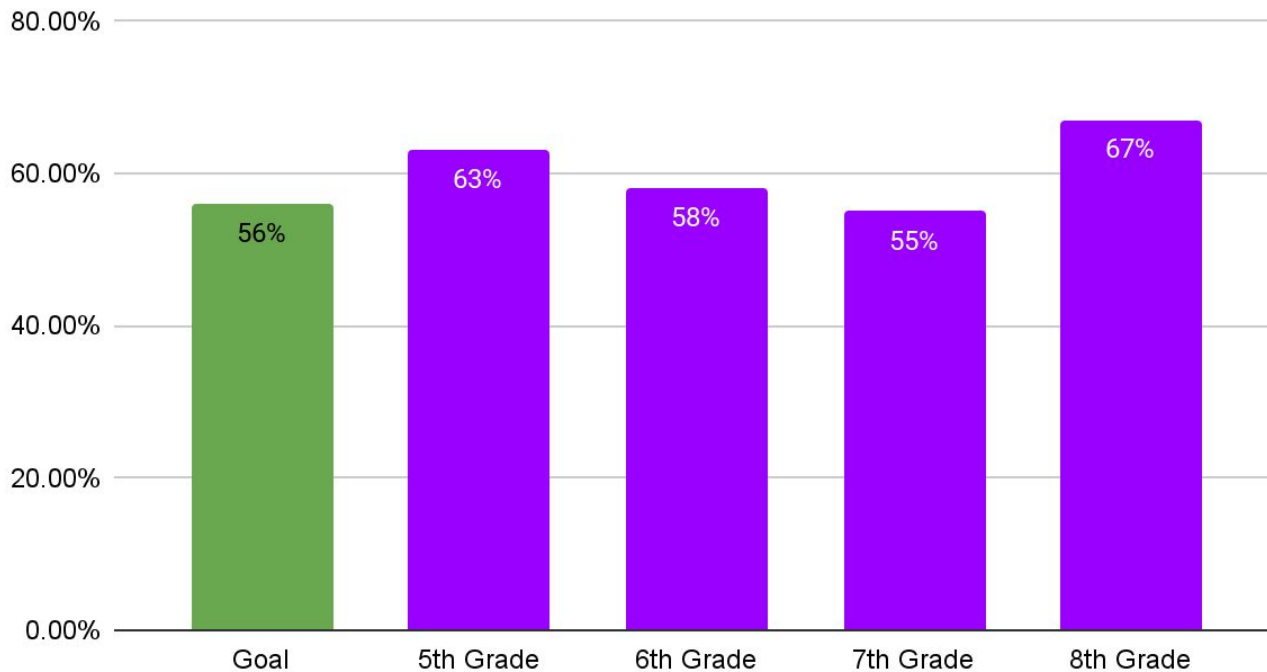

This year middle school art is creating an art bike in collaboration with 816 collective, a non-profit advocacy organization umbrellaed under The Greater Kansas City Bicycle Federation. The bike was donated to use to take apart, clean up and repaint. Once finished we will return the bike to the collective to showcase as an art bike. We are excited about building this relationship with 816 collective as a means of educating students in bike repair and rebuilding as well as showcasing their talents and creativity.
