### Service Vignette

Over the last three quarters, our elementary special education team has been working hard to provide as much support and service as possible in the general education classroom. In doing so, students with disabilities have had greater exposure and opportunities to grapple with the curriculum. These opportunities have lead to the majority of students, especially 3rd and 4th grade, to make significant growth on their NWEA. Our hope as a department is that these gains will also translate into higher MAP scores overall.
